BIOMARKERS IN BREAST CANCER

Chairperson: A. Marcell Szász

8:00–18:00 Registration

9:00–9:30 Magali Triki-Lacroix, Gustave Roussy Cancer Center:

Hormone receptors

9:30–10:00 Elena Provenzano, Addenbrooke's Hospital, Cambridge University Hospitals:

HER2

10:00–10:30 A. Marcell Szász, Department of Oncology and Internal Medicine, Semmelweis University:

Ki67

10:30–10:45 Coffee Break

10:45–11:30 Roberto Salgado, Peter Mac Callum Cancer Centre:

Tumor infiltrating lymphocytes and PD-L1

11:30–12:00 Erika Tóth, National Institute of Oncology, Budapest, Hungary

The role of liquid biopsy in breast cancer patients

12:00–13:30 Lunch

13:30–14:30 Csaba Bödör, Department of Pathology and Experimental Cancer Research, Semmelweis University:

Breast cancer susceptibility: Inherited mutations

14:30–15:00 A. Marcell Szász, Department of Oncology and Internal Medicine, Semmelweis University:

Multigene tests

15:00–16:00 Industry symposium

16:00–16:30 Coffee Break

BREAST PATHOLOGY

ORGANIZED BY THE
HUNGARIAN DIVISION
OF THE INTERNATIONAL
ACADEMY OF PATHOLOGY

- 16:30–17:00 Thomas Decker, Dietrich-Bonhoeffer-Klinikum:
Incidence and risk of lesions of uncertain malignant potential (B3): real-life data from the German mammography screening program
- 17:00–17:30 Falko Fend, University Hospital Tübingen, Institute of Pathology and Neuropathology:
TP53 status in hormone receptor-positive breast cancer: a new biomarker?
- 17:30–18:30 Poster Viewing/Poster session**
Chairperson: Lilla Madaras
- 17:30–17:35 Anikó Kovács, Sahlgrenska University Hospital:
A threefold evaluation of HER2low status of advanced breast carcinomas in core biopsies, matching surgical specimens and their distant metastases. A retrospective study of 47 patients using conventional microscopy, digital pathology and artificial intelligence (AI)
- 17:35–17:40 Zsófia Karancsi, Department of Pathology, Forensic and Insurance Medicine, Semmelweis University:
Breast Cancer Characterization via LA-REIMS: Exploring a Novel Mass Spectrometry-Based Diagnostic Approach
- 17:40–17:45 Gabriella Ivády-Szabó, National Institute of Oncology, Budapest, Hungary
Cytological Features of Sentinel Lymph Node Evaluation in Breast Cancer Patients Following Neoadjuvant Chemotherapy
- 17:45–17:50 Klára Éles, University of Pécs Medical School, Department of Pathology:
Evaluation of Magee Equations in Predicting Oncotype DX Results: A Study of 92 Patients
- 17:50–17:55 Aliz Gógl, Department of Pathology, Forensic and Insurance Medicine, Semmelweis University:
Invasive lobular carcinoma arising in phyllodes tumor - a diagnostic challenge
- 17:55–18:00 Miklós Török, Gyula Kenézy Campus, Clinical Centre, Debrecen University:
Prognostic potential of apoptosis related biomarker expression in triple-negative breast cancer (TNBC)
- 18:00–18:05 Klára Éles, University of Pécs Medical School, Department of Pathology:
The Secret Life of Breast Cancer: Two Unusual Cases
- 19:30–23:00 Dinner**
